

NORTHWEST MICHIGAN INVASIVE SPECIES NETWORK

It is the Northwest Michigan Invasive Species Network (ISN)'s mission is to *protect, enhance, and promote northwest Michigan's natural communities through terrestrial invasive plant management and outreach.*

ISN works in Benzie, Grand Traverse, Leelanau, and Manistee counties.

Services include:

- Invasive/native plant expertise
- Presentations and class field trips
- Invasive plant management
- Recommended Planting Guidelines and ordinance templates for municipalities
- Outreach materials (brochures, signs, and boot brush stations)
- Recognition through *Go Beyond Beauty* for gardeners, groups, and businesses that don't use or sell highly invasive plants

For more information about ISN, our projects, and invasive species, please visit our website at habitatmatters.org.

Subscribe to our free monthly eNews at the bottom of our homepage.

ISN's Focus Species: Garlic mustard, Japanese knotweed, Japanese barberry, Oriental bittersweet, and *Phragmites*

If you have any questions or concerns, please reach out to our ISN staff:

Katie Grzesiak, ISN Coordinator kgrzesiak@gtcd.org
